Summary

I have a great deal of passion for working with people, and it is my goal to work in an environment that supports positive teamwork. I am able to multi-task as well as learn new software quickly. Being a self-starter, I will always do my best to be at work early and late to be able to complete tasks that I am given while still getting the job done on time. Lastly, I enjoy working in groups or individually and believe that I would be a great asset to your company
